

## Manufacturer's Certification Statement

B.F. Rich exterior window and patio door products when purchased with specific Low-E glass and inert gas fill options, are eligible building envelope components as defined in section 4.01 of IRS Notice 2009-53. Such products meet or exceed the prescriptive criteria and qualify for the aforementioned Home Energy-Efficiency Improvement incentives that allow for a tax credit of 30% of the cost of qualifying upgrades to a maximum of \$1,500 per household for 2009 and 2010.

B.F. Rich certifies that exterior windows and patio doors, as indicated below, are eligible for the Federal Tax Credits for energy efficient building products as defined in the American Recovery and Reinvestment Act of 2009. Performance requirements for exterior windows & doors are as follows: Qualifying product criteria shall be those that are equal to or below a U-Factor of 0.30 and Solar Heat Gain Coefficient (SHGC) of 0.30.
